MAC is a seamlessly integrated Solution for Collection & Processing of real time Data to generate Reports which enables all the Stake Holders of Education System to continuously Self Evaluate & take Simplified & Effective, Evidence based Decisions. It is a user-friendly tool that helps the School to monitor and improve the performance of its Staff and Students in systematic and scientific manner.

Our offering helps in leveraging our robust IT platform for seamless functioning of the school by improving the

- **Data Collection & Storage** - Collection of data related to students as well as the school into a well defined database, which can store years of data and retrieve the same within seconds. Complete Student profile from Kindergarten to Grade 12 can be made available to the school management & parents for review and analysis.
- **Standardize Cycle of activities** - Integrating operational policies with the system and standardize the data collection processes. This involves considering each aspect of what the school does & its impact.
- **Visualization & Analytical Reporting** - The system can generate customized reports with complex calculations as well as statistical analysis on a daily, weekly, monthly or yearly basis. It can provide Real time visibility of the operations to the management. Following are some of the reports that we provide.

- ▶ Attainment & Progress report in comparison with National & International benchmarks
 - ▶ Examination reports with target achievement data
 - ▶ Teacher performance report
 - ▶ Faculty Training report
 - ▶ Conduct survey & provide instant results
 - ▶ Faculty work load report
 - ▶ Subject wise time allocation report
 - ▶ Extra-curricular activity report with participation information
 - ▶ Student/ Teacher attendance & late comers report with reasons for unauthorized leaves
 - ▶ Food chart & infractions
 - ▶ Reports for specific groups of students e.g. SEND, Low attainers & high attainers etc.
- **Building intelligence into the system** - Automatic alerts can be generated if a parameter crosses the defined limit for e.g. If a student has not participated in any of the extracurricular activities in the first term, then an alert will be automatically generated for the concerned teacher to take action.
 - **Communication** - Apps customized with school branding available on IOS app store & Google Play store
